XR-FPV CLUB OF GEELONG

DYNO at TDR Enmore Street North Geelong 18/05/2008

Hi everyone,

Mark reporting on our Dyno Day. Although only 7 members could come we still had 12 cars and had a great day. There was a good variety of Fords and a new Holden VE SS!

Mark brought along his race car. "Damn Transmission". It was great to test out the new 5 speed BA gear box which he and his brother changed over from the previous AU which didn't even last 2 Dyno runs, after the vibration from the lightweight alloy flywheel broke the rear extension housing. I'm glad to say Mark and Tony at TDR were able to repair the gear box in a day, just in time for Mark's next race at Phillip Island 31st of may 2008.

To make this day possible TDR, welcomed friends to join us. We had a couple of people from Melbourne with their cars and a few people watching. Our members didn't let our club down to show who had the strongest and quickest and quickest car. Johnny Bow with his 2003 GT took out the highest shoot at 260.1 Rwkws and 7,100Nm of torque. We enjoyed a fantastic BBQ with tea and coffee provided for the day. Everyone had received a printout on their cars performance, this is a great reference for any future changes you may make to your car.

We thank Tony at TDR 16 Enmore Street North Geelong for his time and efforts in looking after our cars and interests. Tony can be contacted on ph 0419 100 933

Report from Mark Kosir – Club Secretary.

<u>DYNO 2008 at TDR Enmore Street North Geelong on 18th May 2008</u>
